

Publikationsliste Dr. Christoph Metzger-Boddien

- Automated high-throughput immunomagnetic separation PCR for detection of *Mycobacterium avium* subsp. *paratuberculosis* in bovine milk. Metzger-Boddien C., Khaschabi D., Schönbauer M., Boddien S., Schleder T., Kehle J. *Int J Food Microbiol* 110:201-208, 2006.
- Kehle J, Metzger-Boddien C. Development and evaluation of a sensitive PCR-ELISA for detection of Adenoviruses in feces. *Intervirology* 48:297-300, 2005.
- Kehle J, Khaschabi D, Schönbauer M, Boddien S, Schleder T, Metzger-Boddien C. ParaTub-S/SL® - Hochdurchsatzverfahren zum Nachweis von *Mycobacterium paratuberculosis* in Rohmilchproben. 45. Arbeitstagung Deutsche Veterinärmedizinische Gesellschaft 28.09. – 01.10.04.
- Metzger-Boddien C, Bostel A, Kehle J. AnDiaTec® *Salmonella* sp. PCR-ELISA for Analysis of Food Samples. *J. Food Protect* 67: 1585-1590, 2004.
- Wallot M, Metzger-Boddien C, Kehle J, Auth M, Enders G, Dirsch O, Fiedler M, Voit T. Neonatal Coxsackie B2 virus infection causing acute liver failure. *EUR J Pediatr* Feb 163 (2): 116-7, 2004.
- Kehle J, Metzger-Boddien C, Tewald F, Wald M, Schürmann J and Enders G. First case of confirmed Rotavirus meningoencephalitis in Germany. *Pediatr. Infect. Dis. J.* 22 (5): 468-470, 2003.
- Kehle J, Roth B, Metzger C, Pfitzner A and Enders G. Molecular characterization of an Enterovirus 71 causing neurological disease in Germany. *J. Neurovirol.* 9 (1): 126-128, 2003.
- Uphoff H, Metzger C. Zum Einsatz von Influenza-Schnelltests zur individuellen Diagnose. *DMW* 20: 1096-1101, 2002.
- Metzger C, Terletskaia-Ladwig E, Hess RD, Enders G. Rationale und rationelle Enterovirus-Diagnostik. *DMW* 126: 289-293, 2001.
- Asper M, Hofmann P, Osmann C, Funk J, Metzger C, Bruns M, Kaup F J, Schmitz H, Günther S. First outbreak of callitrichid hepatitis in Germany: genetic characterization of the causative lymphocytic choriomeningitis virus strains. *Virology* 284: 203-213, 2001.
- Terletskaia-Ladwig E, Metzger C, Schalasta G, Enders G. A new enzyme immunoassay for the detection of Enteroviruses in faecal specimens. *J. Med. Virol.* 60: 439-445, 2000.

- Terletskaia-Ladwig E, Metzger C, Schalasta G, Enders G. Evaluation of Enterovirus serological tests IgM-EIA and complement fixation in patients with meningitis, confirmed by detection of enteroviral RNA by RT-PCR in cerebrospinal fluid. *J. Med. Virol.* 61: 221-227, 2000.
- Eggers M, Metzger C, Enders G. Differentiation between acute primary and recurrent cytomegalovirus infection in pregnancy, using a microneutralization assay. *J. Med. Virol.* 56: 351-358, 1998.
- Searle K, Dirmeier D, Metzger C, Enders G. A semi-automated PCR-ELISA as an alternative to virus isolation in cell culture for routine diagnosis of enterovirus infections. *Clin. Lab.* 43: 659-664, 1997.
- Metzger C, Michel D, Schneider K, Lüske A, Schlicht HJ, Mertens T. Human cytomegalovirus UL 97 kinase confers ganciclovir susceptibility to recombinant vaccinia virus. *J. Virol.* 68: 8423-8427, 1994.
- Michel D, Müller S, Wörz S, Michel M, Hampf W, Metzger C, Friedrich W, Mertens T. Human herpesvirus 6 DNA in exanthematous skin in BMT patient. *Lancet* 344: 686, 1994.
