“IN ULM, UM ULM UND UM ULM HERUM”…

is a German tongue twister (literally: „In Ulm, around Ulm and all around Ulm“) which is very well known all over Germany.

There is a lot to discover in Ulm and Neu-Ulm. Beer gardens and parks are very attractive and inviting especially when the sun is shining. Other than that, the twin cities offer plenty of culture, but also great shopping opportunities and party locations.

The Danube river and the Swabian Alb with many touristic destinations are located close to Ulm and Neu-Ulm. From the steeple of the Ulm minster, you have a breathtaking view of the twin cities, in clear weather actually stretching to the Alps. These mountains are the ideal place for skiing and snowboarding in winter time and very popular with climbers and wanderers in the summer. Both the Alps and Lake Constance are only a one-hour car-ride away. Bigger cities with airports, like Munich and Stuttgart, are reachable within the same time.

With its 161.53 m, the Ulm Münster has the world's highest church steeple.
Ulm and Neu-Ulm

Two Cities – One Cultural Centre – One Experience

With a total of 180,000 inhabitants, the Swabian twin cities are manageable. Everything is close and will seem familiar in no time. The Danube river officially divides the two federal states Baden-Württemberg and Bavaria. Ulm, the bigger of the two cities with 120,000 inhabitants, is located in Baden-Württemberg and directly borders the smaller Bavarian city of Neu-Ulm on the other side of the Danube river. The two municipal authorities work hand in hand in many sectors. They have grown into a comprehensive economic and cultural space and form the centre of the region between Allgäu and the Swabian Alb.

The Stadthaus at the Münsterplatz, a postmodern building close to the gothic minster.

Landmark of Neu-Ulm, the Wasserturm (water tower).
Ulm is an old city, whereas Neu-Ulm is relatively young and drawn up as the modern counterweight to Ulm. This fact determines the character of the two cities. In Ulm, the former Free Imperial City, you can find the romantic Fisherman’s and Tanners’ Quarter with its old houses, its alleyways, air of medieval times and of course the world’s highest church steeple (161.53 m). Moreover, relics of the city wall, ancient towers and fortifications are also worth a visit. Especially appealing to tourists is the historical city hall of Ulm with its astronomical clock.

The history of Ulm is still alive in many festivals and traditions like the fishermen’ competition on the Danube river, the Danube festival as well as the Schwörwoche (Oath Week), a celebration of one of Europe’s oldest city constitutions. The latter is the biggest spectacle in and around Ulm.

Famous personalities such as the physicist and Nobel Prize laureate Albert Einstein and the Scholl siblings were born in Ulm. Hans and Sophie Scholl are known as members of the resistance against the Nazi regime. 1943 the two students were sentenced to death for the distribution of pamphlets against Hitler and his war in Munich.

Besides cinemas, theatres and museums, Ulm and Neu-Ulm offer a broad range of leisure activities: rowing, boat trips and ice-skating are very popular. In summer, quarry lakes in the city surroundings invite for a swim. In that season, Ulmer Zelt (Ulm Tent) stands for a varied entertainment programme with political cabaret, comedy, rock and jazz. The open air concerts on the Münsterplatz have become famous for their live acts during the Oath Week. Afterwards, you can explore the many bars and clubs to turn night into day.

IMPORTANT THINGS TO DO WITHIN THE FIRST DAYS AFTER YOUR ARRIVAL IN ULM/NEU-ULM

Introduce yourself at the International Office of your university and ask for orientation activities and the Buddy programme. Normally social activities as well as going through all the formalities are arranged – i.e. you don’t have to do the followings on your own:

- Open a German bank account.
- Register at the city council during first 7 days after your arrival to Germany and eventually apply for your residence permit.
- Take out a health insurance policy if you do not have a health insurance in your home country that covers a sufficient medical supply in Germany.
- Matriculate at the given days of registration.

You find more information on these topics in chapter 4 and 5 of this brochure. The International Office of your university can give important advice concerning all formalities you have to handle at the beginning of your studies in Ulm/Neu-Ulm. Furthermore, you can get valuable hints about living and studying in Ulm/Neu-Ulm that may help you to feel comfortable soon. Therefore, you should make use of all the information and orientations offered by the International Office upon your arrival at the university.

New in Ulm or Neu-Ulm?

Are you going to pursue a degree (Bachelor/Master) in Ulm or Neu-Ulm? Or you would like to find a person who advises you personally and individually about the degree programme and life in Ulm? If so you may consider joining the „Buddy Programme“.

A buddy is a student in Ulm or Neu-Ulm who helps you during the first two semesters of your studies, such as, filling out forms, finding your way around the university and city as well as suggesting you how to spend your free time. At the same time you and your buddy have an opportunity to not only learn each other´s language and culture, but exchange experience abroad.

Moreover, there are regular meetings („Stammtisch“) and common events for all international and German students, so that you can get to know many nice people or you may find friends there.

Further information and the registration form of the Buddy Programme:
www.hs-ulm.de/en/Internationales/AAA/BuddyProgramm
3.4 Records of Study at German Universities

The European Credit Transfer System - ECTS (Important for Exchange Students)

ECTS is the European Credit Transfer System introduced in order to ease the international acceptance of study credits. They can be transferred from one university to the other within Europe. Each course offers a specific amount of credits, which reflect the number of working hours you have to invest. You receive credits for all components of the curriculum, including your courses, study related internships and thesis. Furthermore, ASQ (additive key qualification) or key qualification points enable students to build up competence beyond the technical training.

Types of Courses

- V – Vorlesung: Lecture held by a professor
- Ü – Übung: Course to theoretically practice the subject matter
- S – Seminar: Course with active participation by students
- L – Labor: practical application of the subject matter

Furthermore, you usually have to attend one or several internships (external practical semester at Ulm University of Applied Sciences and University of Applied Sciences Neu-Ulm) during your studies in Ulm/Neu-Ulm. During your internship you acquire work experience in the field of your studies for several weeks or months.

The Grading Scale at German Universities:

Grade 1,0 to 1,5: very good
Grade 1,6 to 2,5: good
Grade 2,6 to 3,5: satisfactory
Grade 3,6 to 4,0: sufficient
Grade 4,1 to 5,0: fail

Credits are not the same as grades. Credits are a quantitative measure of your study input. Grades are a qualitative measure of your study output. You receive credits only when you pass a course successfully (grade 4,0 or better).

Services offered by the Studierendenwerke Ulm and Augsburg:

4.2 Health Insurance

Compulsory Health Insurance
- All students in Germany must have a health insurance (from a private or a public health insurance company). Without valid health insurance you cannot matriculate at any university in Germany!
- The monthly rates for students since January 2015 are made up of a standard basic amount, a private nursing insurance amount and an individual amount, that is defined by the health insurance company. Therefore the amount students pay varies slightly – depending on the extended amount of their health insurance company. On average, the health insurance contribution is about 83 €.

  - Students who have already completed their 14th semester
  - Doctoral students
  - Students who work additionally more than 20 hours per week
  - Students, who are entitled to the family health insurance (till age of 25 years some students are included to the parental health insurance; married students: only one of the marriage partners needs to pay the health insurance, the spouse is entitled then to the family health insurance)
All students, who are not entitled to the public health insurance, have to take out a private health insurance or take a voluntary insurance policy ("freiwillige Versicherung") at a public insurance. The monthly rates for voluntary insurance will be higher than the student health insurance. Rates of private health insurances can differ from company to company.

**Students from Countries which have a Social Security Agreement with Germany**

Students from EU countries and from Iceland, Liechtenstein, Norway, Switzerland, Tunisia and Turkey do not need to take a health insurance policy in Germany. They only need to bring proof of health insurance from their home countries. Get an EHIC (European Health Insurance Card) from your insurance company.

**Students who have private health insurance at home which they want to use here**

Students with private insurance from their home country need to bring a confirmation in English or German stating that it covers all costs in case of medical treatment. With this document they can choose any public health insurance and ask for exemption from the obligatory German health insurance. A travel insurance is not sufficient for this purpose.

**Public Health Insurance Companies**

There are various public health insurance companies in Ulm and Neu-Ulm. You can freely choose your health insurance. The Techniker Krankenkasse offers an „on Campus“ service during and at the beginning of the semester at the universities:

4.3 Other Types of Insurances

ACCIDENT INSURANCE

As a student in Germany you have an accident insurance coverage at your university and on the way from your home to university and back. Normally you also have an accident insurance when you are working during the semester, in the semester break or during your laboratory courses. These contributions are paid by your employer.

LIABILITY INSURANCE

Besides the health insurance we recommend buying a liability insurance. It covers compensations in case of any damages you caused accidentally e.g. by bike or partly the loss of your apartment/room key.

If you have any questions concerning the health insurance and other types of insurances in Germany, please contact your International Office or one of the insurance companies in Ulm/Neu-Ulm.
Direct Link to Health Insurance

TK Campus Teams are at service for students

Contacting your health insurance will become easier and more direct now. With its campus teams, Techniker Krankenkasse (TK) is going to offer even more service to students. No matter if you meet TK during the TK service day or on campus for a personal dialogue, questions regarding your health insurance will be answered directly.

Michèl Jaquet is available on campus as a student consultant for Ulm and environment all around the clock. „This is how we can be of assistance independent from space and time. Especially at semester start, the demand is high.“ Most frequently, we are dealing with insurance confirmations which need to be provided for enrolment as well as with questions related to insurance while taking up student jobs.

The TK service day at the University of Ulm takes place in the big cafeteria area opposite the info point of the student union. Michèl Jaquet will be available every wednesday between 11 am and 2 pm. Students enrolled at University Ulm and University of Neu-Ulm will have the opportunity to meet him directly on the campus.

Appointments are possible via:
phone 0731-96 42-157
mobile 0151-14 53 49 78
or via email: michel.jaquet@tk.de
Health insurance while you are studying

As a student, you must present your insurance certificate at the state-accredited university or college on matriculation at the beginning of your studies, or if you change your health insurer or university/college. You can obtain this certificate from your local TK branch office. The university/college will then automatically confirm your matriculation to TK.

As student still insured with your family
Students up to their 25th birthday can be covered by their parents’ health insurance if their total regular monthly income does not exceed EUR 415.
Those who have done voluntary military service, federal voluntary service or legal service which means that their studies were hence interrupted or delayed will remain insured for this additional period. This also applies to other voluntary services such as a voluntary social year.
Furthermore, it is also possible to be covered by non-contributory dependants’ insurance of the spouse or civil partner pursuant to the Lebenspartnerschaftsgesetz [German Civil Partnership Act].

At the age of 25 you have the right to choose
As a student, you can, of course, choose to continue health insurance with TK after your dependants’ insurance cover has expired. The only requirement is that you do not work full-time self-employed. You also may not have any other health insurance cover, e. g. as an employee or because you are receiving unemployment benefits. TK must have this information available in writing.
If you were insured as a dependant with another social health insurance fund, switching to TK is easy: simply submit your application within two weeks.
Students who already hold compulsory or voluntary insurance with another social health insurance fund can also take out insurance with TK.

Contributions
Students subject to compulsory insurance pay a monthly contribution of EUR 66.98 to health insurance (including the TK-specific additional contribution of EUR 5.97) and EUR 14.03 to long-term care insurance. Members over the age of 23 without children pay a higher contribution to
long-term care insurance: EUR 15.52. Students receiving BAföG (Bundesausbildungsförderungsgesetz) [Federal Training Assistance Act] can be granted an allowance. Please bear in mind to pay your contributions for the semester in advance. This can most easily be done by giving a direct debit mandate which you can revoke any time. In that case payment on a monthly basis is possible.

End of compulsory insurance
Compulsory insurance usually ends with the end of the semester you complete your studies, with the end of the 14th academic semester or in the semester you turn 30. Exceptions are, however, possible, if an extension is justified for family or other personal reasons or due to the nature of the vocational training. Examples include illness, the birth of a child and its subsequent care or getting the university/college entrance requirements in second chance education. Please contact your TK in case of such an exception. If your compulsory insurance ends we continue to insure you as voluntary member to preserve your insurance cover.

Important for international students
Students from EU countries, who are already insured in their home country, do not have to be insured in Germany. You can directly go to see the doctor with your European health insurance card. Students from other countries have to take out health insurance in Germany.
Earning money while studying

In case you are employed as so-called working student while you are studying, you continue to pay your contributions to health and long-term care insurance as a student. Income from employment is not subject to contributions to health, long-term care or unemployment insurance. This also applies for sideline self-employment.

What is a working student?
Working students are those students who are enrolled as regular students at a university/college or a professional school/technical school and are, at the same time, in paid employment. A regular student, i. e. a student working 20 hours/month at maximum, is a student matriculated at a national or international university/college or Fachhochschule [university of applied sciences and arts/polytechnic]. People who study at a state professional school/technical school or other educational institutions (such as Techniker- und Meisterschulen [schools for technicians or craft-speople]) are also considered to be regular students. The duration of the studies is the period between registration as student (matriculation) and leaving university or the final exams leading to qualification. Postgraduate and doctoral students are not considered to be working students, since their studies are only aiming at getting an academic degree.

Full-time studies
Exemption from insurance and contribution payment is only possible as a full-time student. Students of the Fernuniversität [study by distance learning] in Hagen have to additionally prove that they are enrolled on full-time studies. Participants in preparatory courses for studies and guest auditors are not considered to be students.

Requirements
The studies have to be in the student’s focus of performance (time as well as work) and employment must be of secondary importance. Regardless of the amount of payment, this principle is achieved:
· if you do not work more than 20 hours/week during the term. During semester holidays full employment is possible.
· in case you work more than 20 hours/week but you work predominantly during the evening, at night or on week-
ends. However, employment must be of secondary importance as compared to your studies.

- if you work more than 20 hours/week but limited to three months/year.

In case a student has several occupations the hours worked are added to assess exemption from insurance.

**Exemption from pension insurance**
You can only be exempted from pension insurance in case of a short-term employment, i.e. employment is limited to no more than three months or 70 working days per year in advance.

**Part-time self-employment**
Employment has to be of secondary importance and your studies predominate. In case your work only fulfills part of these criteria we will be happy to advise you.

Non-contributory dependants’ insurance: Beware of income limits. An existing dependants’ insurance may cease to exist depending on the income level.

Those having a regular total monthly income of more than EUR 415 can no longer be covered by dependants’ insurance. The limit for people in marginal employment, i.e. the so-called „mini-job“, amounts to EUR 450. The total income includes, among others, gross income from employment, income from self-employment but also state and private pensions, income from letting and leasing as well as capital income.

Dependants’ insurance is terminated if the income limit is exceeded for more than three months/year. It that is already known at the beginning of an employment non-contributory dependants’ insurance is terminated immediately. In that case you usually have to pay contributions to health insurance yourself.

5.1 Banking

Account
Germans use a current account (*Girokonto*) for their daily banking business. The *Girokonto* allows them to transfer money from one account to another (*Überweisung*). It allows automatic withdrawals (*Abbuchung* or *Einzugsermächtigung*) for paying regular bills such as telephone bills or the monthly rent. When opening a *Girokonto*, you receive an EC card (an electronic cash and debit card) with a PIN which can be used for cashless payments in supermarkets or department stores. It is also convenient for withdrawing money from a cash machine (ATM).

Most banks offer students a *Girokonto* free of fees or charges. Before opening an account you should inquire if any fees apply and how much they are. They may vary from bank to bank. Some banks charge fees for the *Girokonto* from their customers who have attained the age of 30 regardless of their studies.

For more information on and a comparison of current accounts, please visit: https://www.check24.de/girokonto/?cpref=404 (only in German!)

Cash
Within approximately one week after having opened an account you will receive your EC card and your PIN. With this card it is possible to withdraw money, free of charge, from the ATM of any branch of your bank company in Germany. Ask for partner bank companies whose ATMs you can use without paying an extra charge. Of course you can also withdraw money from any ATM of other banks, but they usually charge approx. 2.50 – 5.00 €. Most ATMs worldwide will accept your card, too (maestro symbol). Until you have received your new bank card in Ulm/Neu-Ulm, it is possible to withdraw money at the counter of your branch office.
ACCOUNT STATEMENT (KONTOAUSZUEGE)

In each bank branch there is a machine, usually located near the ATM, called a Kontrastleuzugsdrucker. As soon as you have received your bank card, you can use it to print out bank statements at your bank. You should do so at least every four weeks to keep track of your balance and to avoid costs for mail postage.

CREDIT TRANSFER (UEBERWEISUNGEN)

Instead of writing cheques, bills are paid by electronic money transfer. As the Single Euro Payments Area (SEPA)-transfer is introduced in Europe you need two numbers in order to send money to another account within the European Union. The International Bank Account Number (IBAN) consists of 22 to 27 units with numbers and letters. The Bank Identifier Code (BIC), an internationally valid bank sorting code, consists of 8 to 11 alphanumerical letters. With the IBAN and BIC of the recipient and your own International Bank Account Number, you can fill in a money transfer order (Überweisungsauftrag). Credit transfers in-between EU-countries follow conditions like national transfers. Some banks also have computer terminals in the customer area on which you can fill in orders electronically. If you need help you can always ask your bank staff for assistance. Transfers from or to non-European countries work the same way but they take longer.

REGULAR PAYMENTS: AUTOMATIC WITHDRAWAL OR STANDING ORDER (EINZUGSERMAECHTIGUNG UND DAUERAUFTRAG)

For regular expenses such as rent, health insurance, phone bill, etc., it will be required of you to give permission for automatic withdrawal. You have to sign this permission e.g. when you sign your phone contract. These companies will then withdraw the money from your account every month (usually during the first week of each month).

Attention! It is your responsibility to make sure that there is always enough money on your account when these sums are withdrawn! If the withdrawal fails, you will be charged bank fees (usually around 5,00 – 10,00 €). The withdrawal will not be repeated. Therefore, you will have to fill out a money transfer order amounting to the sum of the failed withdrawal on your own.

A Dauerauftrag is a standing order. This means that you order the bank to transfer a fixed amount of money to the same account on a regular basis. Basically, it is the same as an automatic withdrawal, but initiated by your side. You have to cancel it if necessary.
ONLINE BANKING / TELEPHONE BANKING

If you want to do your bank business online or via telephone, ask your bank staff for the online banking/telephone banking facility. Depending on the supported security system you will receive a telephone PIN and transaction numbers (TAN). Each transaction number can be used only once. Online banking is one way to handle transactions with reduced or no fees.

TRAVELERS’ CHEQUES

You should be aware that nearly no German restaurant, hotel or store accepts travelers’ cheques. Instead, you will have to exchange travelers’ cheques for cash at a bank. Please note that many banks charge fees for cashing cheques.

CREDIT CARDS

Mastercard and Visa are accepted in bigger stores and gas stations. Other credit cards are not very common. Acceptance in general is not as widely spread as in other countries. Stores often only accept the EC Card. Credit cards can also be used to obtain cash at ATMs if you have a PIN. Be aware that credit card companies usually charge high fees for this service.

BANK COMPANIES

You can roughly differentiate between:

• **Traditional brick- and mortar institutions:**
  
  • **Local bank companies** like Sparkassen and Volksbanken (e.g. Sparkasse Ulm, Sparkasse Neu-Ulm/Illertissen, Volksbank Ulm, Volksbank Neu-Ulm). You will find many branches and ATMs of these bank companies in Ulm und Neu-Ulm but none in other cities. It is possible to withdraw money, free of charge, from the ATM of any other Sparkasse or Volksbank in Germany.
  
  • **National bank companies** (Postbank, Commerzbank, Deutsche Bank, Dresdner Bank, HypoVereinsbank). Only a few branches and ATMs of these bank companies are located in Ulm/Neu-Ulm, but you will find their branches all over Germany. These five bank companies form the “Cash Group”. Customers may withdraw money free of charge from the ATM of any branch of these bank companies in Germany.
  
  • **Virtual banks** are internet based financial institutions, which offer deposit and withdrawal facilities, as well as other banking services, through ATMs or other devices without having physical (brick and mortar) walk-in premises (norisbank, comdirekt and Ing-DiBa for example).
5.2 Job Regulations for Students

Regardless of your future status at your university there will never be a guarantee that you will find a job to support yourself during your stay. You should therefore be aware of the fact that you will have to live off your own personal funds or scholarship resources only! Furthermore in Germany, students who have a contract for work with incomes over 4860 € per year or with incomes over 450 € per month have to pay social contributions. Students have to pay taxes for incomes over 8.354 € per year. As soon as students work more than 20 hours per week for more than 26 weeks per year, they lose their status as students for tax and social contributions law.

On-Campus Work Regulations

- **Students** are allowed to work on campus in a field related to their study program for a maximum of 85 hours per month at Ulm University, for a maximum of 49 hours per month at Ulm University of Applied Sciences and for a maximum of 19 hours per week at the University of Applied Sciences Neu-Ulm. The German phrase for this kind of work is “Studentische Hilfskraft”. Most jobs offered at the universities are for advanced students.

- **Doctoral students** (Doktorand*innen) may be employed on campus as “Wissenschaftliche Hilfskraft”. The amount of hours has to be fixed by the supervisor of the doctoral thesis. Regulations also allow a 50% research position. Postgraduate scholarship holders of any German institution should follow the guidelines of their scholarship provider. At Ulm University of Applied Sciences, **Master-Students** may also be employed as „Wissenschaftliche Hilfskraft“, for a maximum of 42 hours per month however.

- **Scholarship holders**, who receive a scholarship of a German organisation, should follow the guidelines of their scholarship provider.
Off-Campus Work Without Work Permit
All EU citizens have unlimited permission to work in Germany. Foreign non-EU students without a work permit are allowed to work for a maximum of 120 entire or 240 half days (= 4 hours/day) per academic year. You are not allowed to work more than 20 hours/week during the lecture period, or you will lose your student health insurance status. It is recommended to work during the holidays in order to avoid an interference with your studies. Up to 18 months after graduation, alumni may search for an adequate employment. In this period, they are allowed to work under the same conditions as students.

Off-Campus Work with Work Permit
Degree students who plan to work more than the above given time period, need a work permit from the Agentur für Arbeit and the Ausländerbehörde. Usually the work permit is only given to advanced students for work related to their field of study and after presenting a so-called Unbedenklichkeitsbescheinigung (certification of no objection) from your university. This certificate has to confirm that the student has studied successfully so far and that the university has no objection to a work in a study-related field.

5.3 Living Expenses

Obviously living expenses mainly depend on your personal lifestyle. Please consider that living abroad is always expensive. Taking all items into account students have to expect expenses of approximately 600 € to 700 € per month. To be on the safe side, please make sure you have enough money to make a living. You can not count on regular financial support during your studies.

Approximate monthly expenses:

- **Rent:** 200 - 400 € monthly, a one time payment of 20,00 € service fee and about 300 € deposit (only at the “Studierendenwerk”)
- **Health insurance:** since Januar 1, 2015 all public health insurance companies demand a so called supplemental premium, which is defined by each insurance provider. Monthly student rates consist of: health insurance + supplemental premium + long term care insurance. On average, the health insurance contribution is about 83 €.
- **Lunch at mensa:** The price of one meal is about 1,90 - 5,00 €
- **Semester Ticket:** 116,50 € per semester for public transportation in the region
- **Teaching materials:** 30 - 100 € per semester specialist literature, schoolbooks, textbooks and equipment
- **Studierendenwerk fee:** Ulm University: 78,00 € per semester, Ulm University of Applied Sciences: 78,00 € per semester, University of Applied Sciences Neu-Ulm: 42,00 € per semester plus 27,00 € each semester solidarity tax for the semester ticket
- **Fee for constituted student body** (Verfasste Studierendenschaft):

- **Broadcast Services Contribution:** 17,50 € monthly (for more information please check chapter 8.4, page 51)
- **Furthermore:** expenses for clothing, necessary items and leisure time activities
5.4 Tuition Fees
In Baden-Württemberg and Bavaria, the tuition fees of 500,00 € were abolished for all undergraduate programs (Bachelor, state exam and diploma) and consecutive Master study programs. Nevertheless you have to pay the semester fee for the Student Service Agency (Studierendenwerk) and the administrative fee and in Baden-Württemberg also the fee for the constituted student body. You will receive a request of payment with your study admission letter or your re-registration for the next semester.

6.2 Private Housing

There are a lot of ways to find private housing in Ulm and Neu-Ulm. However, you should bear in mind that shortly before the semester starts, it will be more difficult to find a room. Therefore, you had better take a look in advance.

Most rooms and apartments are offered unfurnished. There are many online services, but most landlords/flatmates want to meet you in person before making a contract. We also highly recommend to look at a room or an apartment first (and also talk to the landlord personally) before reaching a binding agreement.

PRIVAT APARTMENT RENTAL - HELP AND PITFALLS
Real estate agents can help you find a place to stay. Since June 1st 2015 German law dictates that real estate agent fees must be covered by the person employing the real estate agent.

But you have to be careful when searching for an apartment: dishonest real estate agents have interested parties sign a contract. You also have to watch out for either overpriced or very low quotes of additional costs - this way try some landlords to draw in or attract tenants to cover real agent fees.

Youth hostel (Jugendherberge) in Germany means a non-profit, small budget hotel, usually with shared bedrooms. To stay in one of these youth hostels in Germany you need a membership of either the organization “Deutsche Jugendherberge” (DJH) or “Hosteling International” (HI). The annual fee for people under 27 is 7,00 €, older people pay 22,50 €.

You can apply directly at any youth hostel or online at:
www.jugendherberge.de/en/basics/membership or www.hihostels.com/info/membership

In other countries, a membership may not be necessary to stay in one of these hostels. Especially if you plan to travel Europe it is worth to look at the HI homepage and compare the prices with normal hostels because you can get a discount (10 % per night for example in England) as a member of the HI.

A backpacker hostel is called in “Germany Hostel” or “Backpacker” or “Backpacker Hostel”. For those private hostels you don’t need a membership.
7.1 Busses, Trams and Local Trains (DING – SWU)

Ulm und Neu-Ulm have a very well developed public transportation system. The SWU (Stadtwerke Ulm; the company running the municipal bus and tram lines), several companies from the region and the Deutsche Bahn (German Rail) have joined their services to form the DING (Donau Iller Nahverkehrs Gesellschaft). Within the DING area (which reaches out almost 50 km into the surroundings of Ulm) you can use different companies and means of transportation with only one ticket. The DING area is divided into several zones (Waben). The price of a ticket differs depending on how many zones you will cross. The whole city area of Ulm and Neu-Ulm forms one zone (Wabe 10/20) with standard prices.

There are also night busses in Ulm, which operate the whole night before Saturday and Sunday and before holidays. These night busses are free of charge for students of Ulm University, Ulm University of Applied Sciences and University of Applied Sciences Neu-Ulm, if the student ID card will be shown.

7.3. Taxi
Taxis in Germany are rather expensive. However, if you share a taxi with your friends who have the same destination, it might be a good bargain for you. A ride from the inner city to Ulm University or to other distant parts of the city will be about 10,00 to 15,00 €. If you share a taxi with 6 or 7 persons, please order a large-capacity taxi (“Großraumtaxi”).

📞 Taxizentrale Ulm: +49 (0)731/66066, www.ulm-taxi.de
📞 Taxizentrale Neu-Ulm: +49 (0)731/77000, www.donau-taxen.de

7.4 By foot
The inner cities of Ulm and Neu-Ulm are quite small and everything can be reached by foot conveniently. However, the universities (and also some student residences) in Ulm and Neu-Ulm are located on the outskirts of the cities.

7.5 Bicycle
Exploring Ulm by bicycle is easy. There are a lot of bike paths in the city. Especially cycling along the Danube river is very popular. But be aware that Ulm University and parts of Ulm University of Applied Sciences are located in higher regions of the city and the altitude difference to the inner city is up to 200 m.

People who are weary of searching of a parking place and enjoy cycling, not only find a map with cycling ways of Ulm and the nearest area but also other interesting informations about using public bicycle pumps, bicycle shelter, parking and even shower possibilities at Ulm University.
Further information and more tips about cycling in and around Ulm on: www.uni-ulm.de/misc/iui-gesfuerm/ffahrradfahren-am-oberen-eselsberg.html (only in German!) and on www.adfc-ulm.de (only in German!).

You are allowed to take your bike onto the bus and tram for free from 8.30 a.m. to the end of operating hours from Monday to Friday as well as on the whole Saturdays, Sundays and public holidays. If you take your bike onto the bus before 8.30 a.m.
during the week you have to buy an additional ticket for a child for the distance you want to cover. If the driver gives you a permission, you may take your bike onto the bus beyond the time. It is allowed to transport up to 2 bikes on the bus. With your bike, you have to get into the bus at the second door.

**Bicycle Repair Shop**

Ulm University features a bicycle repair shop (*Fahrradwerkstatt*), where all students can repair their bicycles and can get help and advice from other students. It is located underneath the Mensa of Ulm University, O25.

Please find opening hours and more information on:

**7.6. Carpooling**

The Mitfahrgelegenheit is an organized traveling with other people, where one offers his car and all travelers are sharing the cost of the trip, which makes the journey for all participants much cheaper. There are plenty of online pages with different priorities, which offer Mitfahrgelegenheit. For service of some of them you have to pay, others are free of charge. In this way you can find yourself a transportation or offer the trip to the community.

To avoid misunderstandings during the trip, care to contact your fellow passenger before to find out how many seats are free or to let him know how many you need, to agree with him where to meet and where to drop off and how high the travel expenses are. It’s also useful to exchange names and phone numbers, so you can contact each other in case of some changing plans, problems or delays, but also for your own sake.
You can minimize the risk of traveling with an unknown person by using websites, which offer rating system for their members and/or verification of their identity by the copy of their ID or other identity documents. There are professional flight web pages, which help air passengers to find a follow passenger for their flight and some other web sites who connect railway travelers with each other.

7.7. Long-distance Busses
You want to travel cheap by bus? No problem! Since three years the network and the amount of long-distance busses providers has increased. They are becoming an interesting alternative to Deutsche Bahn. Even though the journey takes more time, the long-distance busses attract with lower prices for destinations within Germany and abroad. Some intercity bus suppliers connect daily large and medium cities together and make it possible to travel cheap across Germany, for example the intercity bus from Ulm to Munich costs 7 €.
The long-distance bus-offer of Deutsche Bahn recognizes the BahnCard for the destinations within Germany. The owners of BahnCard RAILPLUS get 25% discount for the destinations abroad in 28 European countries. The current offers and prices of all Intercity buses can be viewed at: www.checkmybus.de.

8.2 Telephone

All service numbers starting with 0800 can be dialed free of charge. Numbers starting with 0900 are usually high-priced.

Public Telephones

Most of the public phone booths are operated by the Deutsche Telekom (www.telekom.de). You can use cash to pay but more convenient for payment are telephone cards which you can obtain at the “T-Punkt” (Deutsche Telekom Shop) and at the post office. Other public telephones are located in Internet cafes where international calling rates are often cheaper. Calling cards (using the 0800 prefix and PIN) are accepted at most telephone booths and offer a cheap alternative for calls abroad. Be sure to inform yourself in advance about the exact rates, conditions and validity among the different calling card providers. Further information can be found at: www.teltarif.de/callthrough/html.

Mobile Phones (Called “Handy” in Germany)

Since most Germans possess a mobile phone, public pay-phones have become increasingly rare. The mobile phone network operators in Germany are T-Mobile, Vodafone and Telefónica. These operators have their own shops (T-Mobile is the mobile branch of the Deutsche Telekom, you find them in the “T-Punkt“ stores), where you will find further information. Additionally, you can look up rates and rate comparisons (also from discounters) on www.handytarife.de/anbieter (only in German!). There are huge differences in prices, rates, services and monthly charges, but generally speaking you can distinguish between:

- **Pre-Paid**: no contract, no minimum running time, no minimum turnover / no monthly minimum amount
- **Contracts**: Duration of 2 years (cannot be cancelled ahead of time!), with monthly costs, but you will receive an inexpensive modern mobile phone

Private Landline

As calling costs via mobile phone or public telephones are quite expensive, it is recommended to have a landline installed if the duration of phone use is to be for a longer time period. In Germany there are currently many options. The standard way is to go with the Deutsche Telekom or “T-Punkt”. When moving into a new apartment it is recommended to assume responsibility of the existing telephone line of the previous tenant, as connection costs for a new line are significantly higher.
Once you have established a telephone connection with the Deutsche Telekom, it is possible for you to take advantage of cheaper telephone rates through other contractors by dialing a prefix prior to each call. A list of the current rates from various contractors can be found at: www.teltarif.de or www.billiger-telefonieren.de. The costs for these calls through the contractors will be automatically included in your telephone bill. Another alternative is to use a mobile network operator or TV/cable provider for your private landline.

Students using their mobile phones

**TELEPHONE DIRECTORIES**

Telephone directories are available online at: www.teleauskunft.de. Here you can access all following telephonebooks:

- “Das Örtliche” for your city, the national phone directory: “Das Telefonbuch” and the commercial directories: “Gelbe Seiten” (yellow pages).
- National directory assistance by Deutsche Telekom (of course, there are also a lot of other providers), costs: minimum 1,99 €: 📞 + 49 11833 (in German) or 📞 +49 11837 (in English) or 📞 +11836 (in Turkish)
8.3 Internet
All students who are matriculated at one of the three universities get their own e-mail address and full access to computer pools of their university. Most student residences also provide internet access, which is the most convenient and cheapest way to have internet access at home.

You will find further information about computer pools, accounts and WLAN access at the computer centre of your university:

- **Ulm University**: [www.uni-ulm.de/en/einrichtungen/kiz.html](http://www.uni-ulm.de/en/einrichtungen/kiz.html)
- **Ulm University of Applied Sciences**: [www.hs-ulm.de/en/imz](http://www.hs-ulm.de/en/imz)

**DSL (Digital Subscriber Line)**
DSL is available throughout the whole city of Ulm and Neu-Ulm. You will often receive DSL-Hardware (WLAN) when signing a contract (be aware of minimum duration). Costs: 20,00 - 30,00 €, depending on provider and bandwidth.

There are also a lot of providers (Telekom, 1&1, O₂, Freenet, Kabel BW, SWU etc.) offering home phone and DSL flat rates in a bundle, inform yourself on their websites.

You may share your DSL connection with your roommates to decrease your personal costs.

There is free public Internet Access for 1.5 hours per day during the opening hours of the Ulm Public Library. You need a valid library card, though. If you have your own laptop, you can use wifi as long as the library opens and again you need the registration member.

Ulm Public Library: Ulmer Stadtbibliothek, Vestgasse 1 (next to the city hall Ulm), [www.stadtbibliothek.ulm.de](http://www.stadtbibliothek.ulm.de)
You can use library’s computers and the free public internet access of the Public Library of Neu-Ulm for max 30 minutes. If you have your own Laptop, you can ask library employers to provide your WLAN access for as long as you need.

8.4 Contribution Regarding Broadcast Services
A licence fee is charged to every apartment in order to fund the public broadcasters. In principle, every household has to pay 17.50 € monthly - and this is irrespective of whether any devices in a household are available and/or used.

According to the principle "One apartment, one contribution", only one person must pay, no matter how many people live there. An apartment is defined as any structurally enclosed space unit that is suitable for living or sleeping and is accessible via a staircase, an entrance hall, or from the outside. Bathroom and kitchen are irrelevant.

Apartments are considered as:
- Single apartments - even if it is just one room, but accessible by public, the tenant has to pay the contribution.
- Double apartments
- Shared apartments and residential communities

Since residential communities are considered as apartments, for each shared apartment only one adult person must be registered and must pay the contribution. The residential community itself may decide, which person pays. Among each other there is an obligation to pay compensation. It does not matter if all roommates and/or fellow residents have their own lease. All other inhabitants who are possibly still registered, you can (and should!) deregister.

Warning! Within rental law it is not allowed, that student housing offices (e.g. Studierendenwerk) pay the broadcast contribution and split this proportionate over rent or operating costs. People, who recive social services (e.g. BAföG) can be exempted from the contribution.
Note! Students, who have registered their room in the student dormitory merely as their secondary residence are not exempted from the contribution. The contribution is paid per apartment and not per person. Who has several apartments, pays in principle several times.

Warning! intentional or negligent non-contribution is considered as a regulatory offense and can be punishable with a fine.
Further information on [www.rundfunkbeitrag.de](http://www.rundfunkbeitrag.de) or under follow phone number 01806 999 555 01 (weekdays 07:00 a.m. – 07:00 p.m, pay hotline)
8.5 Mail

Letters are delivered in Germany mainly by Deutsche Post, parcels also by other companies (DHL, UPS, GLS, Hermes, etc.). Website of the Deutsche Post: www.deutschepost.de (only in German!)

If you send and receive packages regularly, it is recommended to use the DHL packstation. This service is free of charge and independent from opening hours. This service has become widespread and offers the convenience of letting the sender be informed per e-mail or text message when a shipment has arrived.

Postage of Deutsche Post

- postcards: within Germany 0,45 €, international: 0,90 €

**8.5 Health Care**

**Seeing A Doctor or A Dentist**

- In many countries, it is customary to go to the ambulance at a hospital first if you get ill. In Germany, you only go to the ambulance in case of an emergency (Chapter 11) or at night or weekends, when the doctors’ offices are closed.
- Everybody should have a general practitioner as personal doctor. You should find a doctor for yourself before you get ill. Doctors usually have large signs outside their offices. Look around in your neighborhood. Also check the web e.g. www.ulmer-aerzte.de (only in German!) or yellow pages. The best way is probably a recommendation by a friend or neighbour.
- The dental clinic of Ulm University offers a wide range of dental treatments. A special offer is the student treatment course, in which the treatments are carried out inexpensively by the students under the supervision of licensed dentists.
  
  📞 +49 (0)731/500 64110, www.uniklinik-ulm.de/struktur/kliniken/zahn-mund-und-kieferheilkunde/klinik-fuer-zahnerhaltungskunde-und-parodontologie.html (only in German!)
- In order to treat patients of public insurance companies, doctors need to have a contract with those companies. On their signs it will usually say “Alle Kassen”. If it says “Privatpraxis”, even clients of public health insurances will get treated as private patients, i.e. they have to pay their bills themselves, but they will only get a small part refunded by their insurance.
- Please bring your health insurance or EHIC card every time you go to see the doctor or dentist.
- For in-hospital treatment, you have to make a co-payment of 10,00 € a day. Maximum is for 28 days in a year.

**Medication**

- You will receive all medically required drugs. They are obtained from dispensing pharmacies (Apotheke).
- The co-payment for prescribed drugs is 5,00 € to 10,00 € in most cases.
8.6 Garbage – Avoidance, Separation and Recycling

In Germany people are in general very environmentally aware and therefore try to avoid waste of resources and pollution of the environment.

Deposit For Beverages

Beside the normal system of returnable bottles (glas and plastic) for beverages, you also have to pay deposit for a lot of disposable bottles (glas and plastic) and cans in order to motivate people to return them. Depending on the type of beverage and filling capacity you may or may not have to pay a deposit. For juice usually you do not, for water however and beverages like cola you have to pay almost always a deposit. Watch out for the logo of the Deutsche Pfandsystem GmbH. If you find this emblem on a bottle or can, you will have to pay 0,25 € deposit.

However, you won’t find that emblem on every bottle that you have to pay a deposit for. Empty bottles and cans can always be returned at the store where you bought them and also at every bigger shop, which also sells these types of disposable bottles and cans. Take care not to damage the bottles and cans so you won’t have problems with the return!

Sorting And Recycling Waste

The rules for recycling are imposed by local authorities, the system can differ from town to town.

- **Gelber Sack and Gelbe Tonne** (for potentially recyclable garbage)
  
  For all „light“ plastic and metallic packing materials, such as yoghurt cups, plastic bags, styrofoam, milk and juice packs, cans, spray cans, that may carry the symbol “der Grüne Punkt” and are not mentioned somewhere else. Make sure everything is completely empty. You can pick up yellow (plastic) sacks at the recycling stations or in the Bürgerbüro of Ulm or Neu-Ulm (Chapter 4).

- **Glass** (glass containers, placed together with the paper containers in your neighbourhood) Bottles (the not returnable ones) etc., but no light bulbs, mirrors and window panes.
Daily Life

- **Paper and cardboards** (blue garbage can)
  All kinds of paper, e.g. newspapers, magazines, cardboard and packaging material. Clean paper only – no coated paper (from milk- or juice packs) or tissues.

- **Biotonne** for biodegradable waste (brown garbage can, *Biomüll*)
  Food garbage, coffee filters, tea bags, plants, even used tissues.

- **Restmüll** for all other kinds of waste. Everything not mentioned above will have to go to the *Restmüll* (remaining garbage). But keep in mind that you will have to pay for the disposal of Restmüll, whereas all the other kind of waste can be disposed free of charge (except *Biomüll*).

- **Recyclinghöfe** for bulky or hazardous waste and electronic devices
  There are recycling stations (*Recyclinghof*) all over the city, where you may deposit all kind of hazardous waste (e.g. batteries, paints, oil), bulky waste (e.g. furniture, carpets, wood, window panes) and also old electronic devices. You can also bring all the types of waste listed above (except *Biomüll*). You will need a car to access these recycling stations.

Each student residence has its own system for dividing up the cleaning work. Ask your room mates how things work in your dorm or your particular flat share.

More information on recycling and public recycling stations/containers can be found on the websites of the waste management companies of Ulm and Neu-Ulm:

Germany is one of the countries with the most holidays (Feiertage) in the world. On holidays the universities and shops are closed, trains and buses operate according to the Sunday schedule. Most of the holidays are national holidays, but some holidays are state specific. Bavaria has the most holidays (15), Baden-Württemberg one less (14).

10.3 Student Initiatives

STUDIERENDENVERTRETUNG (STUVE)

The StuVe forms the “student government” of a university in Germany, offering support and help as well as representing the interests of all students. How much and in what form the StuVe is implemented in a university can differ very much (even the name can be different). Duties of the StuVe are for example active shaping of the semester ticket policies, the organization of events, advisory service for students concerning financial matters and participation in many committees of the university, which decide, for example, on the use of funds and / or examination regulations.

Basically, the StuVe is always looking for dedicated students. Only with the help of many diverse students, the interests of all students may be represented well and the big variety of services can be maintained by the StuVe. Are you interested? Please turn directly to your StuVe.

STUDENT REPRESENTATIVE BODIES (FACHSCHAFTEN)

All students of a faculty form the Fachschaft. However, the phrase Fachschaft is often used for active students, who are engaged in the work of the Fachschaftsbüro (office). The Fachschaft helps students of one faculty with questions about exams and also represent the student’s interests in the faculty. Interested students are always welcome!
