The diagram consists of two red circles of different sizes. The larger circle is centered at (100, 100) and has a radius of 100. The smaller circle is centered at (200, 200) and has a radius of 50. Two black lines are drawn across the image: one line passes through the center of the larger circle, and the other line passes through the center of the smaller circle. Both lines have a negative slope.
