

**17th INTERNATIONAL EPIDEMIOLOGY SUMMER SCHOOL IN ULM
UNIVERSITY OF ULM, GERMANY**

Course outline:

Introduction to Epidemiology

Prof. Wayne Rosamond, University of North Carolina at Chapel Hill, USA

Analyses of Case-Control Data

Prof. David Richardson, University of North Carolina at Chapel Hill, USA

Genetic Epidemiology

Prof. Michael Province, Washington University School of Medicine, St. Louis, MO, USA

Cardiovascular Disease Epidemiology

Prof. Gerardo Heiss, University of North Carolina at Chapel Hill, USA

On To Ulm Again

By Wayne Rosamond

(adapted from *On the Road Again* by Willie Nelson)

On to Ulm again,
Just can't wait to get back to Ulm again,
The life I love is teaching EPI with my friends,
And I can't wait to get back to Ulm again,

On to Ulm again,
Going places that I've never been,
Seeing students that we hope to see again,
I can't wait to get back to Ulm again,

On to Ulm again,
Like a band of gypsies we follow Stephen down the highway,
We're the best of friends, insisting that EPI be taught our way,
And our way, is...

On to Ulm again,
Just can't wait to get back to Ulm again,
The life I love is teaching EPI with my friends,
And I can't wait to get on to Ulm again,

On to Ulm again,
Nicole is there to help us at every turn,
Without her we may never come again,
I can't wait to get back to Ulm again,

On to Ulm again,
We're thankful that the students return to class each day,
We learn a lot from them, and we wouldn't have it any other way,
And our way, is....

On to Ulm again,
Just can't wait to get back to Ulm again,
The life we love is teaching EPI with our friends,
And we can't wait to get back to Ulm again.
