

**18<sup>th</sup> INTERNATIONAL EPIDEMIOLOGY SUMMER SCHOOL IN ULM  
UNIVERSITY OF ULM, GERMANY**

Course outline:

**Introduction to Epidemiology**

Prof. Wayne Rosamond, University of North Carolina at Chapel Hill, USA

**Advanced Methods of Epidemiologic Analysis**

Prof. Jay Kaufman, University of North Carolina at Chapel Hill, USA

**Clinical Epidemiology**

Prof. Bill Miller, University of North Carolina at Chapel Hill, USA

**Reproductive Epidemiology**

Prof. Allen Wilcox, University of North Carolina at Chapel Hill, USA

**Handled with Care**

By Wayne Rosamond

(adapted from "Handled with Care" by George Harrison)

I've been in school, I've been around,  
I've raised my hand and been shut down,  
Ulm you are the best that I've ever found,  
You handle me with care.

Jet lag has been tolerable,  
Richard's plans impeccable,  
Nicole - you are incredible,  
You handled us with care.

Every student...had a schedule...to see through,  
Every teacher...had a lecture...to sleep through,

Your questions at times had us fooled,  
Our answers wrong and ridiculed,  
We may need to get night-schooled,  
You handled us with care.

Yes, some students were mesmerized,  
Others may have been hypnotized,  
All were epidemiologized,  
You handled it with care.

Every student had a schedule to see through,  
Every teacher had a lecture to sleep through,

Causal inference odds ratios,  
And what is a DAG well who knows,  
Repro epi and on it goes,  
You handled it all with care.

Session's over so is your stress,  
The time has come to leave I guess,  
Oh the sweet smell of success,  
You handled us with care.
