The **Faculty of Natural Sciences of Ulm University** (Ulm, Germany) invites applications for a tenured **Professorship in Organic and Macromolecular Chemistry**

at the W3 (m.L.) level, succession of Prof. Dr. Tanja Weil. The position is available for immediate appointment.

We seek to hire an internationally visible researcher with an excellent record of accomplishment in the area of synthetic macromolecular chemistry. Potential research activities should encompass the fields of functional polymers, biopolymers or organic nanomaterials, which should strengthen the existing interdisciplinary research foci such as “biohybrid materials” and “functional materials”. Cooperation is strongly encouraged with closely interacting research groups in the faculty wide established research centres “Biomedizin” (for example CRC 1279), quantum sciences and technologies and/or “regenerative energies” and should complement and strengthen these activities.

Teaching responsibilities cover the full spectrum of macromolecular chemistry in the teaching programs of chemistry. In addition, active participation in teaching organic chemistry and in export teaching programs will be expected. Ready engagement in the academic self-governance is a necessity.

Prerequisites for appointment include an earned doctorate, pedagogical aptitude and additional academic qualifications according to § 47 LHG.

Ulm University is committed to increasing the representation of women in research and teaching; therefore, the University expressly encourages qualified female scientists to apply for this position. Ulm University is certified as a family-friendly institution, offering support for dual career hiring.

Comprehensive applications, including CV and Certificates, appropriate documentation of research and teaching expertise, future research and teaching concepts and a filled personal questionnaire, available at [http://www.uni-ulm.de/nawi/nawi-home/fakultaet/offene-professuren.html](http://www.uni-ulm.de/nawi/nawi-home/fakultaet/offene-professuren.html), have to reach the Dean’s Office of the Faculty of Natural Sciences, University of Ulm, D-89069 Ulm, in written or electronic form (pdf) at nawi.dekanat@uni-ulm.de by September, 15th 2017. Please **indicate index number 60** in the subject line.

Physically disabled applicants receive favourable consideration when comparably qualified.
