STUDIENKOLLEG – FESTSTELLUNGSPRÜFUNG – ASSESSMENT TEST

Foreign applicants who hold a foreign school-leaving certificate qualifying them for university entrance in their home country but which is not equivalent to the German Abitur, cannot enter university directly in Germany but must pass an examination assessing their aptitude for starting a degree programme at a German university (Prüfung zur Feststellung der Eignung ausländischer Studienbewerber für die Aufnahme eines Studiums an Hochschulen in der Bundesrepublik Deutschland”, short: Feststellungsprüfung). The Studienkolleg prepares then for this examination. It offers specialised one-year preparatory courses that are oriented towards the linguistic and subject-specific needs of the prospective students.

Foreign applicants without a school-leaving certificate qualifying them for university entrance in their home country cannot be admitted to a Studienkolleg.

In the Federal State of Baden-Württemberg, where Ulm is located, it is not possible to apply directly to a Studienkolleg. The application for admission to the Studienkolleg must be submitted to Ulm University, where the applicant wishes to take up academic studies upon completion of the Studienkolleg. There is no entitlement to assignment and admission to the Studienkolleg.
