

# Invitation to PhD students of the International Graduate School in Molecular Medicine of Ulm University and their mentors

## JOUR FIXE: May 5<sup>th</sup>, 2009

### *“Europe today”*

We invite PhD students of the International Graduate School in Molecular Medicine of Ulm University and their mentors to come to the 4<sup>th</sup> Jour fixe of “M4M”. This name stands for the programme “Mentorship for Molecular Medicine PhD Students”.

In the first week of May there are two “Europe days”, one on May 5<sup>th</sup>, which reminds to the foundation of the European Council in 1964. And on May 9<sup>th</sup>, which reminds to the announcement of the idea of the French foreign minister Robert Schuman for the foundation of the “European Coal and Steel Community” (in German: Montanunion), a first step to the European Union (EU) we know nowadays.

During our Jour fixe the EU shall be introduced but we also will focus on your attitudes and experiences with the EU. What is the “inside view” of mentors and what is the view of the students who mainly come from the outside? It is certainly interesting to compare the opinions.

This time **we meet at the University**, area West, **Albert-Einstein-Allee 47, room 47.2.280** on **May 5th, at 7 o’clock**. The building is between the bus stops “Wilhelm-Runge-Straße” and “Uni West”, bus no. 3 or 5.

The “Jour fixe” takes place regularly in every month. It offers you the opportunity to get in contact with each other to exchange experiences, to get to know about Germany, its language and culture. And it can be the starting point for further common activities.
