"Molecular Organisation and Dynamics at Interfaces"

Interdisciplinary lectures: "Self Assembly and Surfaces"

Tuesdays 17 h ct. N24 R. 251, Oberer Eselsberg Campus East

27.04.04	Prof. Dr. W. Schuhmann Ruhr-Universität Bochum	Electrochemical robotics and high-resolution electrochemical microscopy as tools in biosensor development and bioanalytics
11.05.04	PD. Dr. Lifeng Chi Universität Münster	Heterogeneous surface patterning and template directed self-assembly
25.05.04	Prof. Dr. Ch. Wöll Ruhr-Universität Bochum	wird noch bekanntgegeben
08.06.04	Prof. Dr. R. Möller Universität Essen	wird noch bekanntgegeben
22.06.04	Prof. Dr. J. Spatz Universität Heidelberg	Biophysical Models of Cell Adhesion and Mechanics Applying Nano- and Microstructured Tools
06.07.04	Prof. Dr. E. Umbach Universität Würzburg	Epitaxial growth and unusual phase transitions of organic molecules on metallic substrates
20.07.04	Prof. Dr. A. Janshoff Universität Mainz	Formation, properties and application of solid supported biomembranes
