

General Index

3D-Visualization in the MOGADOC Database	Vogt
Molecular Gasphase Documentation - Update 2008	Vogt
Boranes and heteroboranes	Hnyk
Cadmium dihalides	Hargittai
Cu(I) acetate and trifluoroacetate oligomers	Tarasov
DNA and RNA nucleobases	Vogt
Gas-phase molecular structures determined by electron diffraction	Rankin
Gas-phase molecular structures determined by electron diffraction	Rankin
Mercury dihalides	Hargittai
Molecular Constants Mostly from Microwave Spectroscopy, Molecular Beam and Sub-Doppler Laser Spectroscopy	Vogt
Rotating sector	Tarasov
Scanner application	Girichev
Stereochemistry of free boranes and heteroboranes from electron scattering and model chemistries	Rankin
Structure data of free polyatomic molecules	Kuchitsu
Structure data of free polyatomic molecules	Kuchitsu
Ytterbium halides	Boggs
Zinc dihalides	Hargittai
