	Ultra-short electron pulse propagation Relativistic modeling of ultra-short electronic pulses <i>I. V. Kochikov, R. J. Dwayne Miller, and A. A. Ischenko</i> J. Exper. Theoret. Phys. 128(3) (2019) 333-340
	Ultrafast electron diffraction Effect of Coulomb repulsion on the space-time resolution limits <i>A. A. Ischenko, I. V. Kochikov, and R. J. Dwayne Miller</i> J. Chem. Phys. 150(5) (2019) 054201/1-054201/14
	Ultrafast electron microscopy Influence of time-of-flight chromatic aberration on the dynamics of propagation of pulsed electron beam <i>S. A. Aseev, A. S. Sadkov, B. N. Mironov, A. A. Ischenko, S. V. Chekalin, and E. A. Ryabov</i> J. Exper. Theoret. Phys. 128(3) (2019) 379-383
	Ultrafast electron diffraction Mapping atomic motions with electrons; Toward the quantum limit to imaging chemistry <i>Z. Li, S. Gyawali, A. A. Ischenko, S. Hayes, and R. J. Dwayne Miller</i> ACS Photonics 7(2) (2020) 296-320
	Dynamics of nuclei and electrons Dynamics of nuclei and electrons in free molecules and condensed matter <i>S. A. Aseev, A. S. Akhmanov, G. V. Girichev, A. A. Ischenko, I. V. Kochikov, V. Ya. Panchenko, and E. A. Ryabov</i> Phys. Usp. 190(2) (2020) 113-136
	Ultrafast electron diffraction Solid-state structural dynamics <i>B. N. Mironov, S. A. Aseev, S. V. Chekalin, A. A. Ischenko, V. O. Kompanets, and E. A. Ryabov</i> Opt. Spektrosk. 127(1) (2019) 25-31
	4D structural dynamics 4D structural dynamics of the transition state: free molecules, clusters and nanocrystals <i>S. A. Aseev, Yu. A. Zhabanov, A. A. Ischenko, V. A. Kompanets, I. V. Kochikov et al.</i> RFBR Bulletin 3(103) (2019) 107-126; DOI: 10.22204 / 2410-4639-2019-102-02-N1.
