ASSISTANT POSITIONS

How do I calculate the costs for an assistant position?

See the website of Dept. III-1 HR Services 'Information on the employment and continued employment of student/research assistants' -> use these hourly rates to calculate your costs (<https://www.uni-ulm.de/einrichtungen/zuv/dezernat-3/abt-iii-1-personalservice/hilfskraefte/kosten-2022-2023/>)

I don't know my future assistant and their qualifications yet. What pay grade do I use for the cost calculation?

Use the pay grade for a research assistant with a bachelor's degree.

After approval of the project start-up funding, what should I bear in mind when filling out the request form for hiring an assistant?

The assistant must be assigned to the researcher who receives the funding. Therefore, the following wording must be used verbatim (in German) as job description in the hiring request:

'Die o.g. Hilfskraft soll Frau (*name of the female junior researcher who receives the start-up funding*) am Institut für (*institute as provided in the start-up funding application*) zugeordnet werden und gemäß Antrag Nr. X (*the reference number of your start-up funding application*), Förderprogramme für Wissenschaftlerinnen, folgende Aufgaben übernehmen:'

- [*Please state the tasks that you listed in your project start-up funding application*]
