

Biotech startup is looking for a Protein Production Specialist (f/m/d)

Ulm University Hospital with its employees stands for modern patient care with high quality, top research and medical teaching oriented towards the future as well as training in attractive professional fields. The prerequisite for this is qualified and committed employees.

About Us

We are a rising biotech startup at the University Hospital of Ulm developing novel inhibitors of the complement system. Since October 2023 we receive the EXIST Forschungstransfer grant by the Federal Ministry of Economics and Climate Protection (BMWK) and the European Social Fund Plus (ESF Plus) of the European Union. Our aim is to bring our groundbreaking research into application to help patients who suffer from rare, but life-threatening diseases.

Position Overview

We are seeking a highly skilled and motivated Protein Production Specialist with expertise in protein engineering, protein expression, cell line development and cell culture. With your experience you will hands-on optimize our lead candidate and production process. Further you will collaborate with the team on other important tasks like the in vivo Proof of Concept.

The contract is limited, with possibility for a permanent employment in startup.

Responsibilities:

- Optimize our existing lead candidate
- Execute protein expression, purification, and characterization
- Conduct cell line development and optimization, with focus on CHO cells
- Collaborate closely with a multidisciplinary team to achieve project milestones

Qualifications

- PhD or M. Sc. with 3+ years of experience
- Background in Biology, Biotechnology, Biochemistry, or related field
- Proficiency in cell line development & cell culture with focus on CHO
- Experience in protein engineering, expression, and purification
- Excellent problem-solving skills with a solution-oriented mindset
- Ability to work independently and collaboratively in a team environment
- Professional communication skills in English (German is a plus)
- Startup mentality, stress-resistant & willingness to go the extra mile

→ **Contract: limited**
→ **Level of employment: full-time**
→ **application deadline: 22.02.2024**

How to Apply

Interested candidates should submit the following documents by the application deadline (22.02.24): Motivation letter, Curriculum Vitae (CV), Transcript of records, Job references, Contacts to references

Please submit your application via email to matteo.mohr@uni-ulm.de with the subject line "Application Protein Production Specialist - Your Name."

Handicapped people with equal qualifications will be employed preferentially. The University Medical Center Ulm aims to increase the proportion of women and therefore encourages qualified female to submit their application.
