

ALL-RUSSIA SCIENCE FESTIVAL IN OCTOBER 12-14, 2018 IN MOSCOW

Scientists of Ulm University are invited to participate

Ulm, 15. Mai 2018: Launched by Lomonosov Moscow State University in 2006, it aims to inspire people of all ages and backgrounds to discover the world around them. The Russian Academy of Sciences, Russian and international universities, research centers, museums, as well as science centers and space laboratories give audiences amazing experiences through a diverse program of innovative events, lectures, exhibitions and experiences. The Festival gathers the greatest minds of the world, including the Nobel Prize laureates.

This is a fabulous opportunity to show the results of your academic work in an engaging and interactive way, meet colleagues and perspective students. The Russian Ministry of Science and Education, as well as Moscow City Government supports the Festival. In 2017, the venues of the Festival collectively gathered more than a million visitors, with millions more viewing the programs online.

We would be honored to see your delegation during the Festival days, as well to have your stand on the Festival Exhibition.

Welcome to All-Russia Science Festival!
