

# PhD Position in Computer Science / Psychology

Mobile Data Collection and Data Science  
*Institute of Databases and Information Systems, Dr. Rüdiger Pryss*

## About Ulm University

Ulm University, Germany was founded in 1967. Its focus in research and education is on natural sciences, engineering and computer sciences, psychology, mathematics, economics, and medicine. It hosts about 10,000 students. The Times Higher Education 2017 ranking finds Ulm University as the **highest-ranked German university** at position 8 among the world's top 100 universities under the age of 50 years.

## About the position:

The position will be carried out in the context of the European School on Interdisciplinary **Tinnitus Research** (ESIT), a Marie Skłodowska-Curie action funded by the EU:

[www.esit.tinnitusresearch.org](http://www.esit.tinnitusresearch.org)

The position shall start in February 2019 and is funded for **3 years**. It is a full-time position according to the Marie Skłodowska-Curie action **salary**. Hiring is done by the central university administration.

## Responsibilities

- Active participation in the training activities of the European School on Interdisciplinary Tinnitus Research (ESIT)
- Harmonization of international data collection across research projects within the ESIT network

## Requirements

- **Master's degree in Computer Science or Psychology**, but not yet a doctoral degree
- At the time of recruitment, applicants must not have worked or studied more than 12 months during the previous 36 months in Germany
- Preferably, skills and experiences in statistical analyses
- Preferably, skills in **mobile application engineering and/or machine learning**
- Preferably, basic knowledge and strong interest in psychology or medicine
- Basic experience in clear writing of scientific reports and articles
- Ability and willingness to work as a team player
- Very good skills in **English** in speech and writing

## We offer

- A diverse and **attractive environment** for interdisciplinary research training with close clinical connections
- High-quality education within the European School on Interdisciplinary Tinnitus Research (ESIT)
- Hands-on research training in an inter-disciplinary team of experienced researchers and clinicians
- Excellent opportunities for cooperation with an international team of tinnitus experts and computer scientists
- **Excellent supervision** on your research project at multiple levels

## Application

Ulm University is committed to increase the share of women in research and teaching positions and therefore explicitly encourages female candidates to apply. Preference will be given to disabled applicants with equal qualifications. Please indicate disablement.
