Förderbestimmungen Horizont Europa. Zum Inhalt

Zwei Leitfragen für diesen Vortrag:

- ▶ Was ist das neue EU-Rahmenprogramm Horizont Europa?
- ▶ Was ändert sich für Sie als Antragstellende angesichts der Open Access-Verpflichtung?

Anschließend: Überblick zu Recherchemöglichkeiten bei der Planung einer Veröffentlichung

Zum Kontext von Horizont Europa

Horizont Europa:

- ▶ Aktuelles EU-Rahmenprogramm für Forschung und Innovation (2021 bis 2027)

Mit dem EU-Rahmenprogramm für Forschung und Innovation Horizont Europa (für 2021-2027) findet Plan S Anwendung.

cOAlition S / Plan S:

- ▶ Europäische Koalition aus Forschungsförderern für offene Wissenschaft
- ▶ Ziel von Plan S: Realisierung von vollständigem Open Access in der Wissenschaft

About the programme

Horizon Europe is the EU's key funding programme for research and innovation.

It tackles climate change, helps to achieve the UN's Sustainable Development Goals and boosts the EU's competitiveness and growth.

The programme facilitates collaboration and strengthens the impact of research and innovation in developing, supporting and implementing EU policies while tackling global challenges. It supports the creation and better diffusion of excellent knowledge and technologies.

It creates jobs, fully engages the EU's talent pool, boosts economic growth, promotes industrial competitiveness and optimises investment impact within a strengthened European Research Area.

Legal entities from the EU and associated countries can participate.

Open Science

Open science: open access to scientific publications

The beneficiaries must ensure open access to peer-reviewed scientific publications relating to their results. In particular, they must ensure that:

- at the latest at the time of publication, a machine-readable electronic copy of the published version or the final peer-reviewed manuscript accepted for publication, is deposited in a trusted repository for scientific publications
- immediate open access is provided to the deposited publication via the repository, under the latest available version of the Creative Commons Attribution International Public Licence (CC BY) or a licence with equivalent rights; for monographs and other long-text formats, the licence may exclude commercial uses and derivative works (e.g. CC BY-NC, CC BY-ND) and
- information is given via the repository about any research output or any other tools and instruments needed to validate the conclusions of the scientific publication.

Beneficiaries (or authors) must retain sufficient intellectual property rights to comply with the open access requirements.
