

## Declaration of consent with regard to the processing of personal data as needed for the provision of a *kiz* account

The University offers numerous digital services for University members, affiliates and other groups of people. A digital identity will be created for every user as part of the University's central Identity Management (IDM). The following data are required for this purpose:

- all given names,
- preferred name - if not stated, first given name will be used,
- surname,
- title,
- date of birth,
- gender,
- nationality, if you need access to high-performance computers that are subject to the Wassenaar Arrangement.

The IDM data process creates an individual account name and email address for you. Because these are personal data, your consent is needed for the collection and processing of said data. These data are processed exclusively in the IDM and the services as listed below in order to create personalised profiles, manage authorisations and access downstream services. A web front end gives access to numerous self-service functions depending on the individual's role (e.g. changing passwords, adding services to profiles):

- email,
- Windows in pools,
- Unix in pools and via remote access (optional),
- bwIDM identity provider for state services of Baden-Württemberg,
- central directory service, which connects to Moodle, the portal and library access.

Your consent also applies to additional services should the offer be expanded.

I,

\_\_\_\_\_ *[title, first name, surname]*

hereby give my consent to the processing of my personal data with the University's IDM as described above. My consent applies only to the correct use and can be revoked at any time. Unless revoked, the consent applies without time limit and ceases automatically with the end of my affiliation with the University. I will notify the University immediately should my status at Ulm University change. Please submit your revocation in writing to

Further processing of the data is currently not intended but theoretically possible in accordance with legal provisions. The consent is voluntary. Refusing or revoking consent does not result in any disadvantage, however, the above mentioned services cannot be used without consent.
