Winter Term
2018/2019

INSTITUTE OF
MATHEMATICAL FINANCE

Prof. Dr. Alexander Lindner
Prof. Dr. Robert Stelzer
David Berger

Stochastic Partial Differential Equations

Requirements:

- The first meeting with the advisor is three weeks before the talk is given and mandatory. You bring an outline of what you are planning to include in your talk. Please make an appointment via email.
- Slides and talk have to be in English.
- The slides must be sent to the advisor one week ahead of your talk.
- If one of the above deadlines was missed, the seminar would be regarded as failed.
- The talk lasts one hour (plus time for questions).
- A (at most) two pages, well-structured handout accompanying the talk has to be prepared and copies for all participants have to be brought along.
- Additional literature has to be used to round off the topic if necessary.
- The topic has to be prepared well and the facts have to be presented clearly. Some proofs have to be included.
- Attendance is mandatory.
