

# Ascend

Discover a graduate career  
for **ambitious minds**.  
At Deutsche Bank.

## Internship in Global Markets – Equities Structuring

Deutsche Bank, one of the leading global investment banks, is looking for aspiring and motivated interns for our Equities Structuring Team.

### Your internship

Would you like to get an insight into the world of finance, learn how commitment and success feel in an international bank while enhancing your practical skills at the same time? If so, complete a two- to six-month internship at Deutsche Bank! Innovative projects, challenging daily business, continuous feedback and special events for interns will help you get the most out of your internship.

**Markets** combines the sales, trading, and structuring of a wide range of financial market products which top industry publications consistently rank as number one in the market.

### About Global Markets – Equities Structuring

Deutsche Bank is a leading provider of innovative market-driven and structured equity investment solutions. The award-winning platform is a dominant force in the equity derivatives arena, pioneering solutions ahead of the market.

### Fields of activity:

- Supporting the local Equities Structuring Team working on projects and transactions with Sales and Trading
- Working on long-term and often unique projects that offer tailor-made solutions to our international clients
- Market and business research
- Quantitative analysis of market and product data, in particular regarding complex derivatives, customized indices, and Smart Beta Strategies
- Supporting the team in regular pricing requests and tasks

### What you can expect:

- An in-depth insight into financial markets and the workflow on a trading floor
- A steep learning curve and interesting projects
- Be an important part of the team with personal project responsibility

### Location:

Frankfurt/Main (Germany)

### Your qualifications:

- Strong academic record
- Strong interest in financial markets and a solid understanding of financial instruments and derivatives
- Fluent in English and German, additional language skills helpful
- Proficient with MS Office applications (in particular MS Excel)
- A quantitative background is advantageous
- Programming skills are not mandatory but helpful
