Grant Application Guidelines

Funding comprises travel costs, accommodation, daily allowance, course fees and visa costs. A prerequisite for the approval of funding is an active participation of the PhD student. Only members of the International Graduate School in Molecular Medicine Ulm can apply for the Mobility Programme.

Applications have to be submitted to the Coordination office at least <u>4 weeks in advance</u> to the journey. After the journey a short report (approx. 1 page) about the event must be submitted to the Coordination office.

1) Travel costs

For the reimbursement of travel costs original travel documents must be provided together with the form *Travel Reimbursement Request*.

Costs for meals will be reimbursed on the basis of a <u>daily allowance</u> ("Tagegeld"). The amount varies depending on the travel destination and the length of the stay. It will be on top of the regular reimbursement.

For travelling by air or train economy class/2nd class tickets have to be used. Taxi fares shall only be reimbursed where no reasonable public transport is available. An explicit justification is needed.

Please note that the Graduate School will only reimburse actual travel expenses, no matter if an application has been accepted for a higher amount in advance.

2) Advance payment ("Abschlagszahlung")

If you wish to receive advance payment please explicitly indicate this on the form "Dienstreiseantrag" and specify reasons for payment e.g. travel costs, accommodation, registration fees.
