

December 12th, 2007

08:00h Departure for Kühtai

11:30-13:00 Arrival/check-in and lunch

Session I

13:15 **T. Burster:**
Protease resistant altered peptide ligands as a strategy to prevent autoimmunity

13:35 **D. Kuon :**
Prolactin signalling pathways in β -cell proliferation

13:55 **D. Vasic:**
Immunohistochemistry: Avidin-Biotin method on cryosections

Coffee break & dicussion

Session II

14:40 **C. Tremmel:**
Report on the meeting in Bregenz (15-20 min)

15:00 **K.-D. Spindler:**
Report on the meeting in Bregenz (30-40 min)

15:35 **K.-D. Spindler:**
Report on a graduate college in Innsbruck (Molecular Cell Biology and Oncology)

Session III

16:00 **C. Hönl:**
Comparison of different transfection procedures with spezial emphasis on EcR/USP (15 min)

16:15 **S. Schauer:**
Influence of hormone response elements on transcriptional activity of nuclear receptors (15 min)

16:30 **C. Tremmel:**
Interdomain signalling, analysed by FRET (15 min)

Evening session

17:00 relaxing, walking, socialising

December 13th, 2007

08:00 Breakfast

09:00 snRNAs: Snow Researching Nearest Active Sites (sports activities)

12:00 Meet in arranged tent for snack

16:15 Return to Hütte for coffee and assessment

18:00 Departure
