## WELCOME

Dear colleagues and partners, dear guests,

We are very happy that you have decided to join us in Ulm for our project week on “Intensive Programs” and wish you a warm welcome.

Intensive Programs (IPs) have been part of the ERASMUS program for many years, and some of you already have experience in organizing such a program, while others have come to find out more about the underlying concepts in order to start their own project. During the workshop on Tuesday morning, two IPs will be presented which have been run successfully in the past years: The Research Summer School Angers and the IP “Water & Soil”.

However, the ERASMUS program as we have come to know it will expire at the end of the academic year 2013/14. After that, the new European education program “ERASMUS+” will continue to offer funding for intensive programs under action II “Strategic Partnerships”, but the goals and the general framework will change. We have received the latest information about the new program from our national ERASMUS agency (German Academic Exchange Service – DAAD) and will give you the prospects for the future.

The central activity of our meeting in Ulm will therefore be the workshop on “Intensive Programs” on Tuesday. In addition, we offer an excursion to possible seminar homes in the region and further meetings by individual arrangement in order to discuss future projects and co-operations.

We look forward to an informative week of explorations and networking with you.

Yours cordially,

Professor Dr. Ulrich Stadtmüller  
Vice-President for Teaching and International Affairs

Dr. Reinhold Lücker  
Director International Office

Dr. Sabine Habermalz  
ERASMUS Institutional Coordinator

Dr. Philipp von Wrangell  
ERASMUS Departmental Coordinator Biology  
Coordinator of IP “Water & Soil”

## PUBLIC TRANSPORTATION

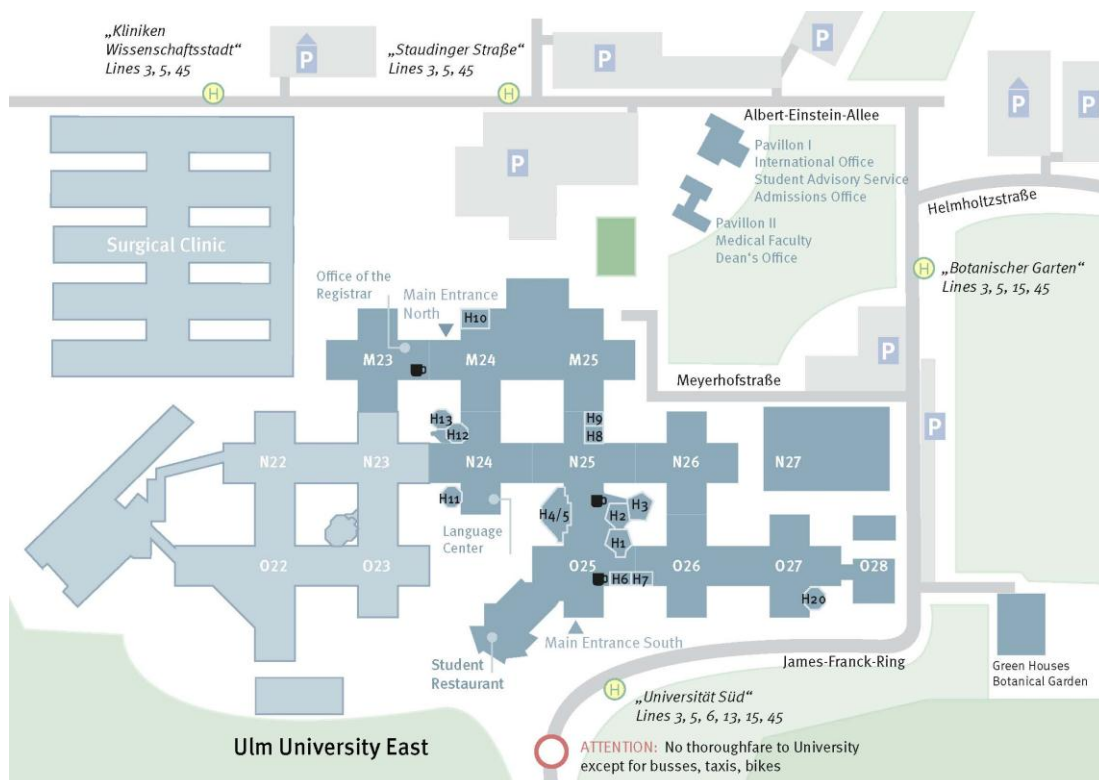

Ulm University campus is serviced by several bus lines. The bus stop “Hauptbahnhof” (Main Train Station) is right in front of the InterCity Hotel. Lines # 3, 5 and 6 leave from here every few minutes.

- Line # 3 is the fastest and most direct connection. It stops on campus at “Universität Süd”, “Botanischer Garten” and “Technische Versorgungsbetriebe”. The ride takes approx. 12 – 14 min. from “Hauptbahnhof”
- Line # 6 runs only until „Universität Süd“. The ride takes approx. 15 min.
- Line # 5 circles the campus in the opposite direction to line # 3. It also stops at “Technische Versorgungsbetriebe”, „Botanischer Garten“ and „Universität Süd. The ride takes approx. 20 - 25 min.

On Monday and Tuesday, meetings will be held at the International Office building “Pavillon I”. Bus stops “Botanischer Garten” and “Technische Versorgungsbetriebe” are the nearest ones.

Tickets (single fare) cost € 2.00. Guests of the InterCity Hotel receive day passes for the whole duration of their stay free of charge.

We do not recommend to come to campus by car, since parking is limited and rather expensive for external visitors.

The International Office is pleased to acknowledge financial support for this event by:
