

Short Curriculum Vitae

Work experience

- since 2017 **W3 Professor for Neurobiology**, Ulm University, Ulm, Germany
- 2012-2017 **Junior Group Leader (DFG, Emmy-Noether Programme)**, University of Hamburg, Hamburg, Germany
Project: Molecular mechanisms regulating seasonal physiology.
- 2011-2012 **Research Fellow**, University of Hamburg, Hamburg, Germany
- 2009 -2011 **Personal Investigator (Marie Curie, FP7, IEF)**, Molecular Endocrinology Group, University of Aberdeen, Rowett Institute of Nutrition and Health
Project: The role of hypothalamic thyroid hormone in body weight regulation.
- 2007-2009 **Post-Doctoral Research Fellow**, Molecular Endocrinology Group, University of Aberdeen, Rowett Institute of Nutrition and Health
Project: Molecular mechanisms of seasonal body weight regulation.
- 2004-2007 **Research Fellow**, University of Veterinary Medicine, Hannover, Germany
Project: The circadian clock during torpor and hibernation.
- 2003-2004 **Marie Curie Fellow**, Laboratoire de Neurobiologie des Rythmes, University Louis Pasteur, Strasbourg, France
Project: Microdialysis in the Djungarian hamster.

Education

- 2003-2007 PhD thesis **Dr. rer. nat.** (Neuroscience) University of Veterinary Medicine, Hannover, Germany and University Louis Pasteur, Strasbourg, France
- 1998-2003 **Studies in Biology**, Johannes-Gutenberg University of Mainz, Leibniz University of Hannover, Germany
