

# Timetable Biophysics M.Sc.

Start of lecture Period: 19.04.2021

End of Lecture Period: 31.07.2021

SS2021, 2nd Semester

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8 – 9					<b>Gene Expression</b> Michaelis online
9 – 10					
10 – 11				<b>Advanced Biophysics Lab</b> Compulsory Lab Course, 8 CP  Gonçalves Lab Rooms 1st Meeting: 22.04.2021online	<b>Einführung in die Neuroinformatik</b>  <b>Start: 16.04.2021</b> Schwenker online O28/H21
11 – 12			<b>Cellular Biophysics</b> Gottschalk online		
12 – 13		<b>Einführung in die Neuroinformatik</b>  <b>Start: 13.04.2021</b> Schwenker online O28/H21	<b>Biophysics Lab</b> Röcker  <b>1st Appointment: tba</b>		<b>Principles of SEM</b> Kaiser online
13 – 14					
14 – 15					
15 – 16			Students will receive more information in the Biophysics Lectures (Gene E., Cell. B.) In case of collision, some lab sessions can be moved.		<b>Principles of SEM LAB</b> Kaiser
16 – 17	Physics Colloquium	<b>Biophotonics</b>  1st meeting to be arranged via Videoconference with the lecturer			
17 – 18	online				

## Notes:

Course Title	Remarks
Biophysics Seminar	<b>Compulsory Course.</b> Timetable will be arranged with students during the first meeting.
Biophysics Lab	<b>Compulsory Lab for the "Biophysics: Advanced Methods" module.</b>
Advanced Biophysics Lab	<b>Compulsory Course.</b> Participants must attend the first meeting with lab safety instructions in order to be allowed to carry on experiments.
Principles of SEM (Lecture/Lab)	Full Title: Principles of Scanning Electron Microscopy
Biophotonics	Timetable will be arranged with students during the first meeting on Thu. 20.04.2021 at 16:15 online.
Protein Biochemistry	Laboratory course takes place usually at the end of the summer semester. Please contact the respective lecturer for more information on the dates.
Genetics	Laboratory course takes place during the second half of the semester.
Neurobiology	Lecture, seminar and laboratory course are offered in a block form; students should check the biology website for the exact timetable. According to the information reported in the portal the lecture "Behavioural Physiology BIO.0035.001" will start on 07.06.2021
Microbiology	Laboratory course takes place usually during the first half of the semester. Please contact the respective lecturer for more information on the dates.
Einführung in die Neuroinformatik	Prof. Schwenker, Course start in portal is given as <b>13.04.2021 until 13.07.2021</b> . Check the format with the respective lecturer.
Neurotechnology: Brain-Machine-Interfacing	Prof. Braun. Check the format and timetable with the respective lecturer.
