

Announcement

Stochastic approaches to dynamical phenomena in physics and economics

Content

Week 1: fundamentals (lecture)

Week 2: fundamentals (lecture)

Week 3: Exercise

Week 4: physical applications (lecture)

Week 5: economical applications (lecture), presentation topics

Week 6: individual discussion of the presentation topics

From week 7 on: presentations or seminar

Prerequisites

Formal prerequisites: none

Recommended prerequisites: none

Target group

Wirtschaftsphysik B.Sc. (5th and 6th semester), Wirtschaftsphysik M.Sc., Physics M.Sc.

Additional Information

Maximum number of participants: 14 (registration required)

2 hours weekly

Exam form: presentation

3 ECTS credits

Begin: 21.04.2017 at 14.15 in N24/251

Lecturer

PD Dr. Jürgen Stockburger, Institute of Complex Quantum Systems
