

## **Secrecy agreements for externally performed dissertations**

Please note that all results that are to be included in your dissertation must be published with the written work in order to fulfil the doctoral requirements.

Redactions are not permitted.

If you are obliged to sign a secrecy agreement in connection with your thesis, this agreement must explicitly grant you the right to publish all dissertation results.

If you are not granted the right to publish the results of your doctoral thesis, this may lead to the rejection of your thesis in the doctoral procedure.
