Dear lecturers of Ulm University, dear colleagues, dear students,

In view of the increasing number of infections and the declaration of an alert level in Baden-Württemberg, the president/the presidium is tightening up the regulations for study programmes with immediate effect, even before the expected Corona Ordinance comes into force this week.

1. The obligation to wear a medical mask or respiratory protection applies to all classroom events and all examinations, regardless of whether the minimum distance of 1.5 metres can be maintained and regardless of the type of examination (written/oral examinations/online examinations in the rooms of the university).

2. The regulation in the presidium decision of 28.09.2021 (No. 4/3.) is repealed. For all examination performances, the 3G regulation (presence of a vaccination, convalescent or test certificate) applies regardless of whether compliance with the minimum distance of 1.5 metres can be maintained or whether there is an obligation to wear a medical mask or respiratory protection in accordance with § 4 of the Corona Ordinance on Study Operations.

The resolutions are subject to other regulations by the expected CoronaVO Studienbetrieb this week.

Basically, we want to stick to the model of study operation consisting of a sensible mixture of face-to-face and online teaching.

As before, the aim of the currently valid Corona Ordinance on Study Programmes is to maintain attendance-based study programmes in the winter semester 2021/22. This is also reaffirmed by the Minister's letter of 16.11.2021. According to information from the Ministry, it is to be expected that the current Corona Ordinance on Study Operations will be tightened in some places, but that a 2 G regulation will not be introduced. For example, it is intended that a medical mask or respiratory protection will generally be worn indoors during attendance events in study operations.
I realise that the necessary tightening of hygiene regulations is a burden for all of you. Nevertheless, I am sure that the face-to-face sessions are a great enrichment and an indispensable part of a study programme.

Kind regards
Yours
Prof. Dr. Dr. Olga Pollatos
- Vice President Education -
