

43rd MoMAN Seminar

From Scientist to Innovator

Dr. Birgit Stelzer

Entrepreneurs Campus &
Life Science Incubator,
Ulm University

In this talk, we will show you how you can use your research results to develop solutions for the future. You will learn concepts of entrepreneurship. And you will get to know peers from Life Science, BioTech and MedTech who already started their startup journey.

We are the Entrepreneurs Campus at Ulm University and provide a home for students, doctoral candidates and postdocs who want to design solutions for complex problems. We introduce you to our activities and offers, especially for life science teams.

Let's create the future!
