b) Another Institution, www.anotherwebpage.de, Country

*) researcher@lab.com (corresponding author email)

Introduction

Please type or insert your abstract into this template to replace the instructions, using Microsoft Word. The format of the abstract (template) is described and illustrated here. Please do not modify page header, paper size and margins (A4 - 21.0 cm x 29.7 cm; 2.5 cm margin on all sides). Each abstract is limited to two pages in the symposium proceedings. Center the title, author list, institutions, and email address of the corresponding author. Use letter superscripts to identify institutions with authors.

Use this section to introduce the overall (clinical) relevance, sum up current research and open questions, clearly state your specific research question (or aim).

Materials and Methods

Use Times New Roman font: 12-point (line spacing: 1.2 fold) for standard text, 14-point bold for the title, 12-point italic for Authors, 10-point for institutions, and 10-point for the reference list. Reference numbers in the text should be enclosed in square brackets [1].

You may include figures similar to given examples (Fig. 1 and 2)

<p>Figure (left part)</p> <p>Figures might be colored.</p>	<p>Figure (right part)</p> <p>Text in figures or diagrams should not be smaller than 8 points</p>
---	---

Figure 1: Captions should be in Times New Roman, bold, 10-point. You may see the left part (left) and the right part (right).

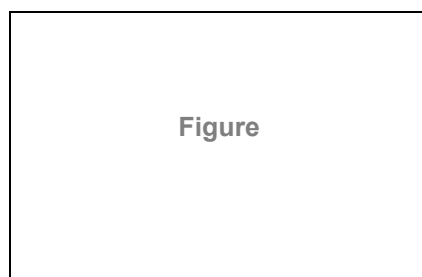

Figure 2: This is an alternative place of the caption for small figures.

and tables like the following one (Table 1)

Table 1: Captions on top of the table.

	<i>Car 1</i>	<i>Car 2</i>
Max. Speed in m/sec	62	74
Power in kW	166	201

and equations which can be referred to by writing (Eq. 1):

$$E = mc^2 = \frac{m_0 c^2}{\sqrt{1 - (v/c)^2}} = \gamma \cdot m_0 c^2 \quad (1)$$

Abstracts must be received by March 24, 2013. A notification of acceptance will be sent to the corresponding author by March 29, 2013. The presenting author must also register for attending the symposium.

Briefly describe the used (developed) methods in this section.

Results

Final abstracts should be converted to PDF file format and submitted attached to an email to the CBU conference office <cbu.office@uni-ulm.de>. For file conversion a free PDF converter such as PDF24 [2] may be used. **The PDF file must have all fonts embedded.** Authors are kindly requested to check their abstract carefully before submission and also verify that all fonts are embedded via the following procedure: Open the PDF file in Adobe Reader. In the *File* menu select *Properties*. In the *Document Properties* dialog box, click on the *Fonts* tab. On the *Fonts* tab, the words *Embedded* or *Embedded Subset* must appear next to each font.

Give the most important results that support answering the stated research question.

Discussion

The abstract, if approved for presentation, will be published as submitted. Submission of an abstract acknowledges the author's acceptance for the abstract to be published in open access symposium proceedings.

Chapter *Discussion* should include an answer to the research question, discussion of verification, validation, and limitations of the methods, (clinical) relevance of the results.

Acknowledgments

Acknowledgments might be stated here.
