Welcome

Via the Higher Education Services Portal offered by the University online access is given to campus services regarding everything about teaching and studying.

The following services are currently available:

- University calendar and calendar of events (**VVZ**)
- Administration of studies and teaching (**LSF-QISPOS**)
As a *student* it is possible to register for and deregister from exams, to change personal data, to take a look on performance records and description of moduls. As a *lecturer* it is possible to edit course data, add updated additional information or administrate exam dates. In addition, the administration of the teaching rooms at the University of Ulm is maintained with LSF. It is possible to place search requests for rooms showing also an occupancy plan of the rooms.
- System for enrolling for and administrating courses (**Corona**)
- Electronic black board
- E-Learning platforms (**Ilias** and **Moodle**)
- Special conditions on offers for software and hardware for research and teaching

Please click on Login: → LSF-QISPOS

Study & Teaching

Log in: → LSF-QISPOS

With the LSF-QISPOS system - the portal for teaching, study and research - you can use a variety of functions concerning the administration of study and teaching:

- Students can access their grades, register for exams and retrieve event, course, module, and exam information. The system allows editing of personal information as well as generating and printing of certificates of enrolment (PDF)
- Lecturers can edit course data, add updated additional information and administrate exam data.
- In addition, the administration of the teaching rooms at the University of Ulm is maintained with LSF. It is possible to place search requests for rooms showing also an occupancy plan of the rooms.
