

Form requesting subject-specific additional information regarding the Master's Programme in Cognitive Systems

Personal Data	Please fill in your details
last name	
first name	
nationality	
Entrance and admission requirements	
name of your degree programme	
overall grade of your bachelor's or equivalent degree (if finished)	
highest possible grade	
minimum passing grade required for passing the bachelor's degree	
average grade of examinations taken by the application deadline (if bachelor's degree is not finished yet)	
English knowledge	
name of the English test + result	
bachelor's or other degree programme taught exclusively in English (please submit proof of it)	<input type="checkbox"/> Yes <input type="checkbox"/> No
If your degree programme is not in computer science, psychology, or cognitive science, but a related area, please answer the following questions to demonstrate the suitability of your educational qualification for the Cognitive Systems programme	
<p>1. The formal description of cognitive mechanisms (both technical and from cognitive science) requires a solid mathematical background (analysis, algebra, probability calculus, statistics). Please outline whether and how you are prepared for this requirement. (Limit 1000 characters)</p>	

Last name: _____ First name: _____

2. Explain whether and how you are prepared for the technical aspects of Cognitive Systems incl. your interest in basic algorithmic and computational principles. (Limit 1000 characters)

3. Explain whether and how you are prepared for the cognitive science aspects of Cognitive Systems incl. your interest in experimental design methods, inferential statistics, basics in cognitive psychology or neuroscience. (Limit 1000 characters).

4. The topics in Cognitive Systems are interdisciplinary by nature. What draws you to interdisciplinary research and how are you prepared for it? (Limit 1000 characters)
